## Campaign Recommendations

An analysis of NYC transit patterns to  
optimize WTWY street team placement

# WTWY's Goal

Build awareness & fundraise

- Maximize email collection
- Fill annual gala

# WTWY's Goal

Build awareness & fundraise

- Maximize email collection
- Fill annual gala

# Our Objective

Optimize WTWY's street team work

- Stations with highest daily average entry
  - Times when stations are most active
- 

# Methodology

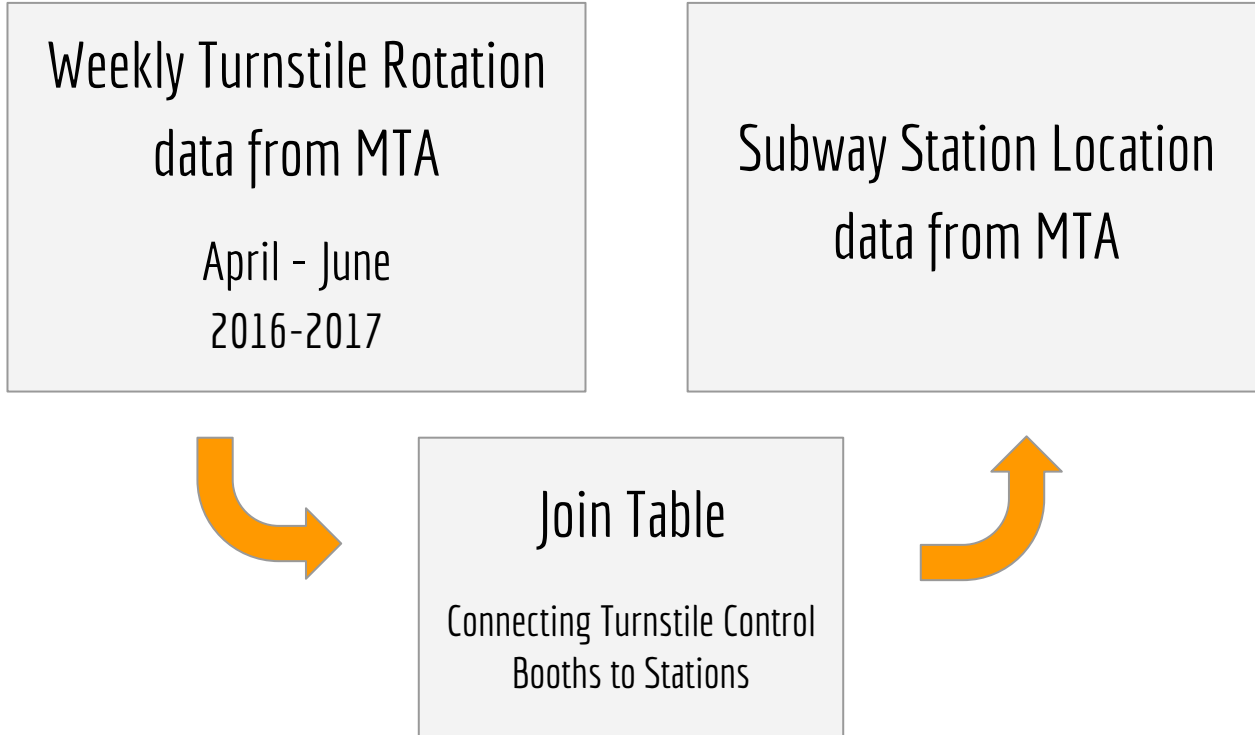

# Data

Weekly Turnstile Rotation  
data from MTA

April - June  
2016-2017

Subway Station Location  
data from MTA

# Data

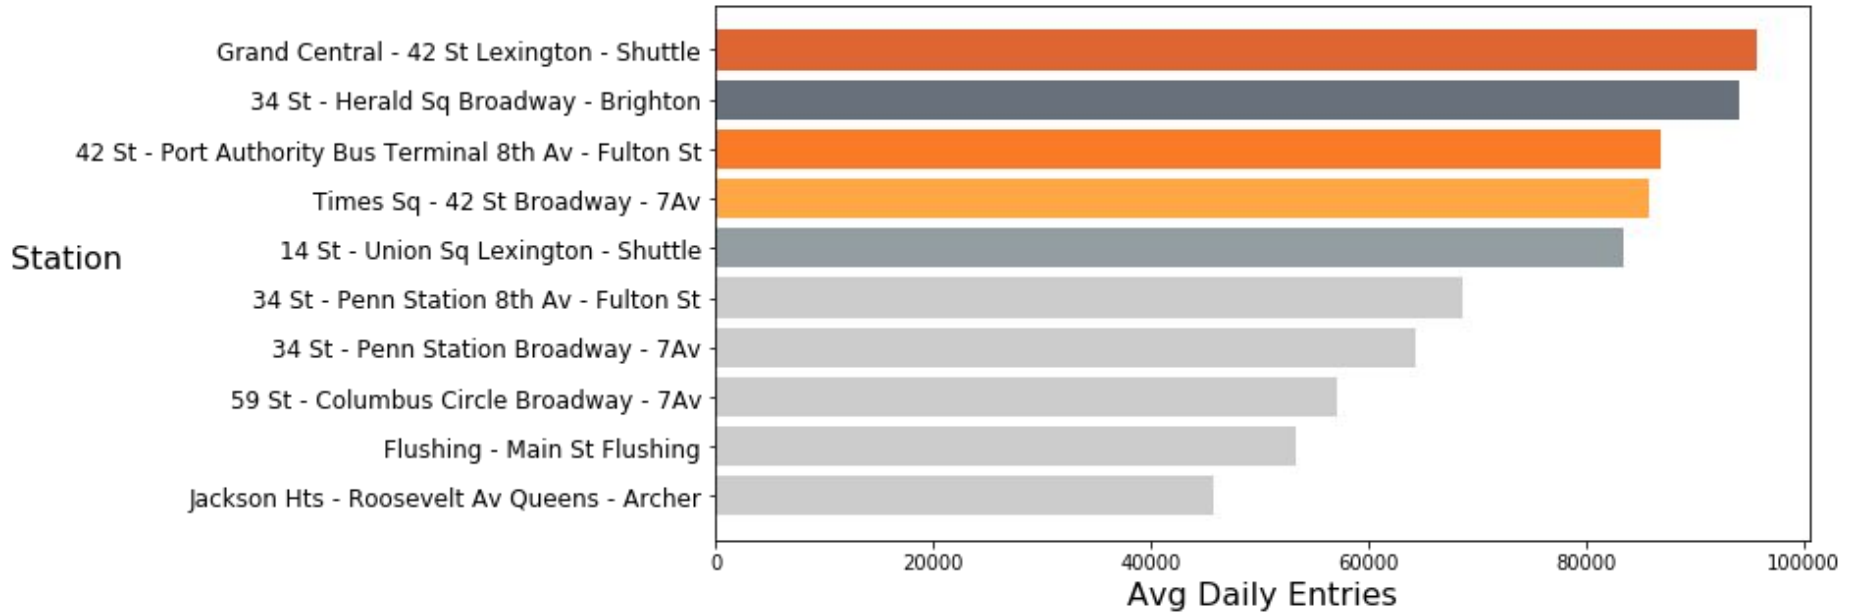

# Assumptions

- Only entry counts
- Removed outliers and null values (~0.6%)
- Turnstile counter reverse constant
- 4 hour time blocks
- Old join table for turnstile - stations joining

# Results

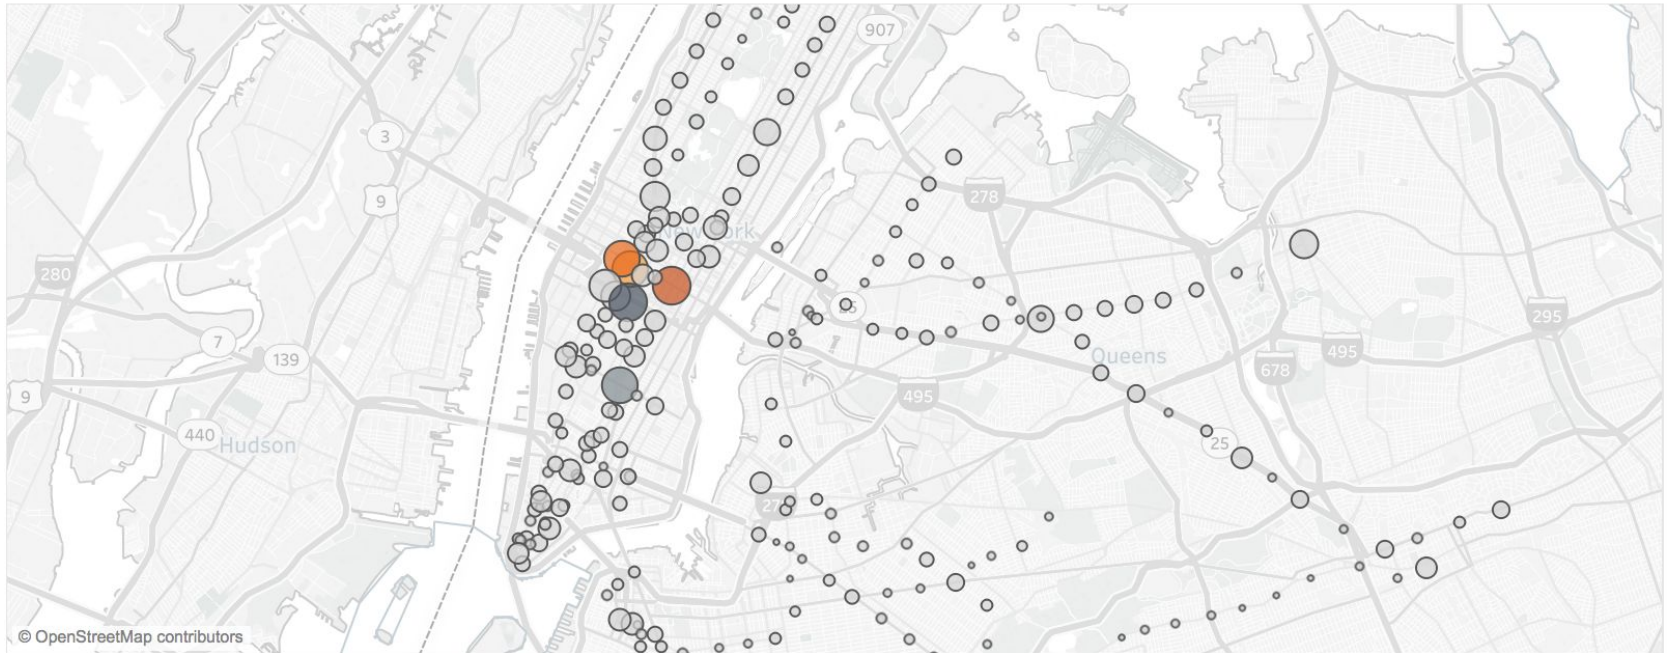

# Locations - Stations with highest avg daily entry traffic

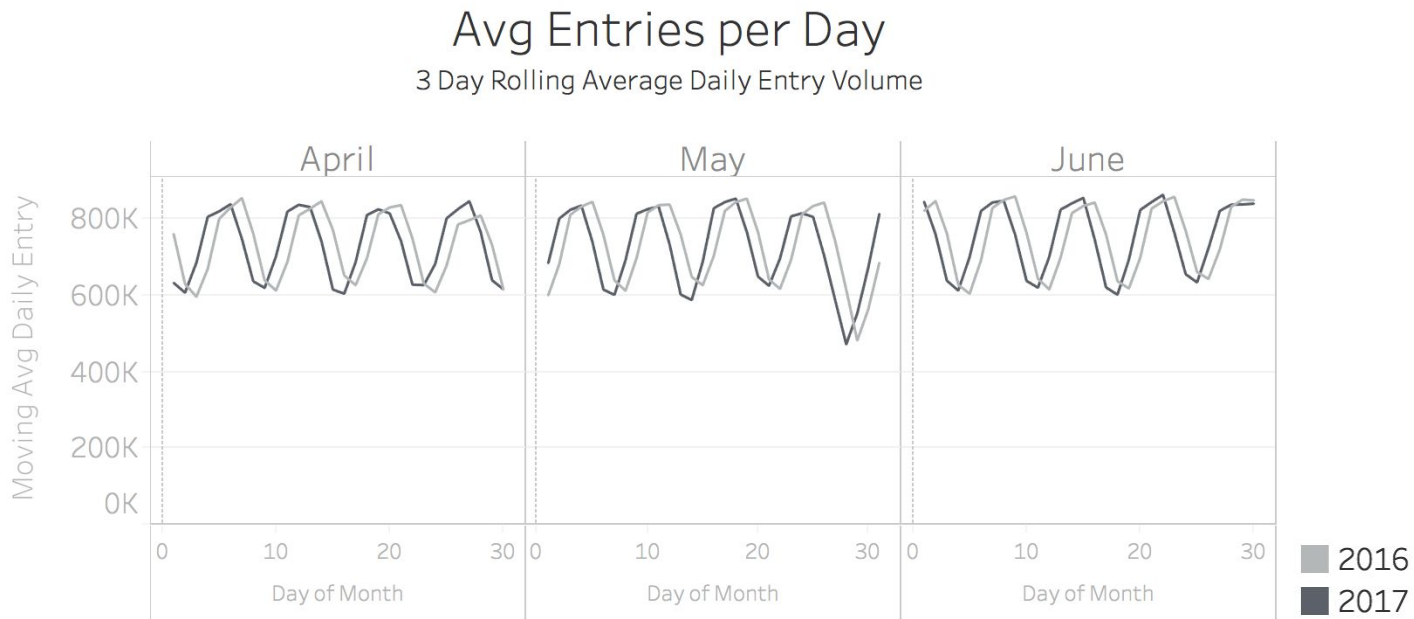

# Locations - Stations with highest traffic are in Midtown

## Avg Entries per Station

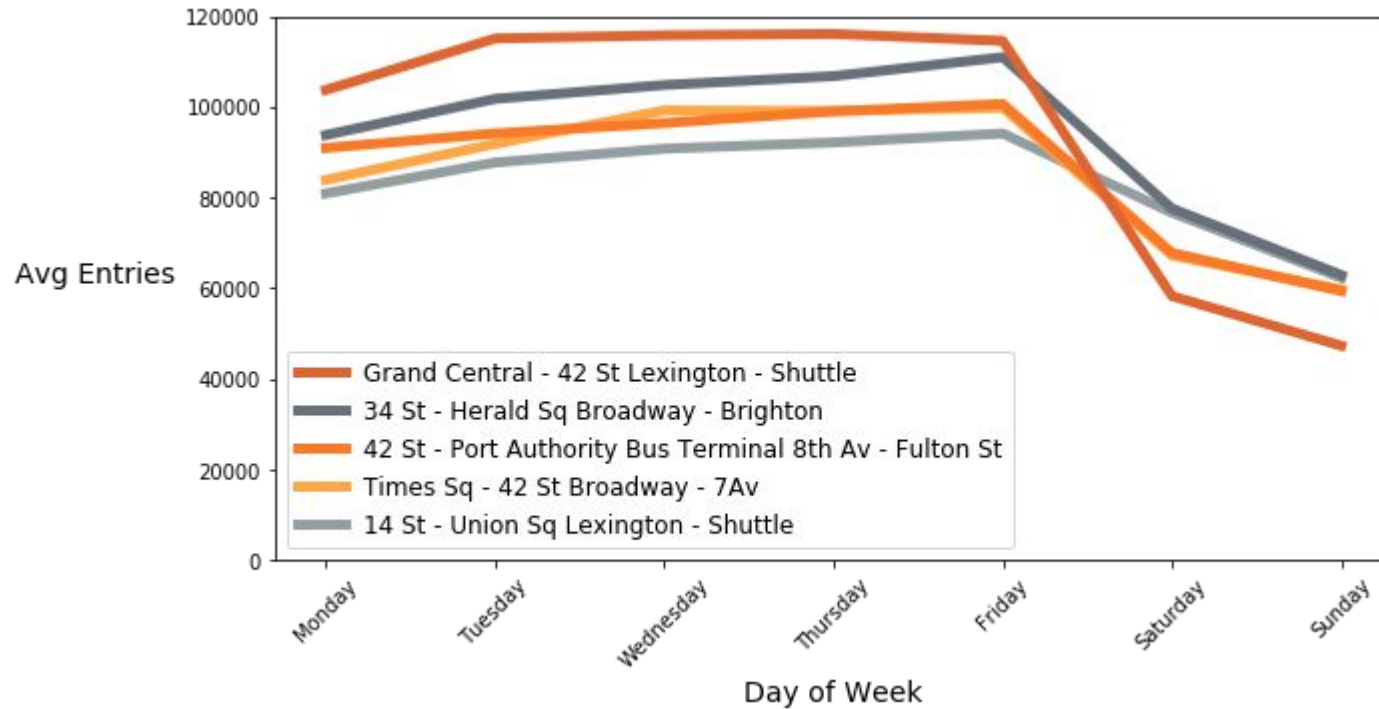

April - June (2016-2017)

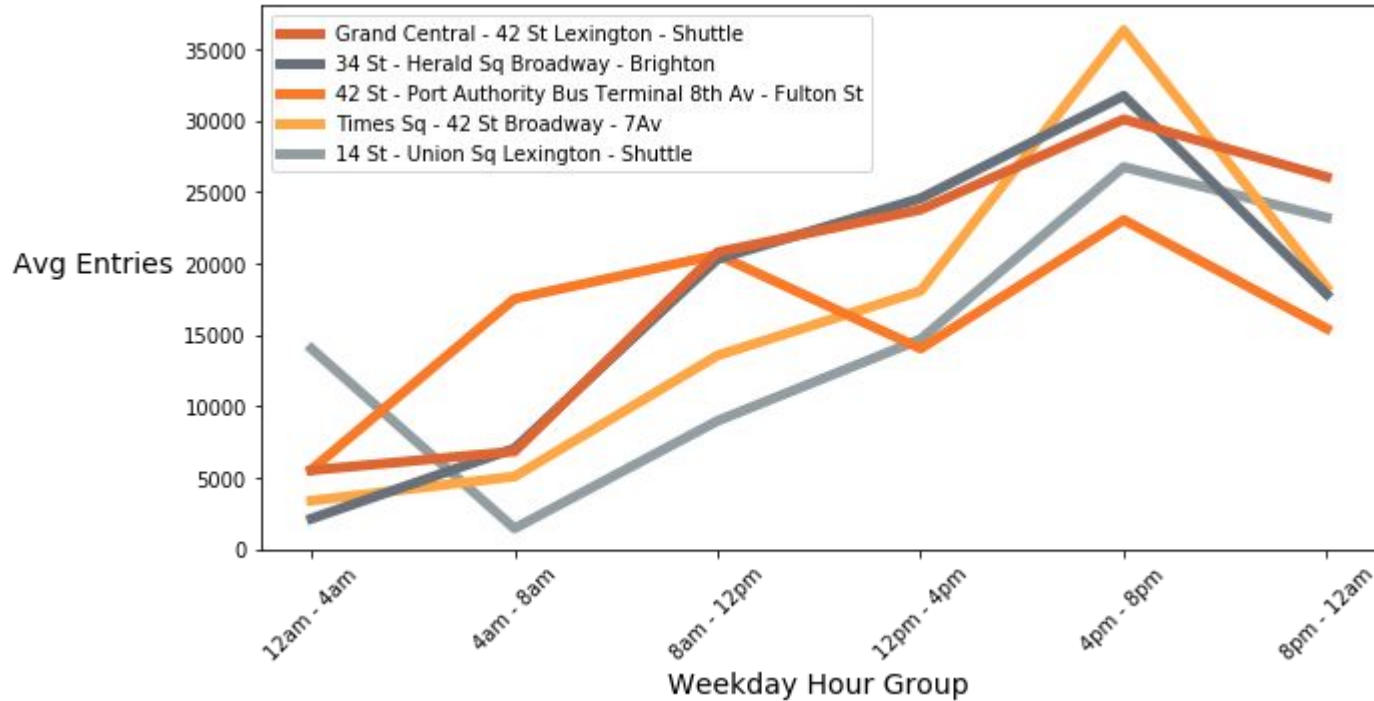

# Timing - Weekly seasonality shows peak times on weekdays

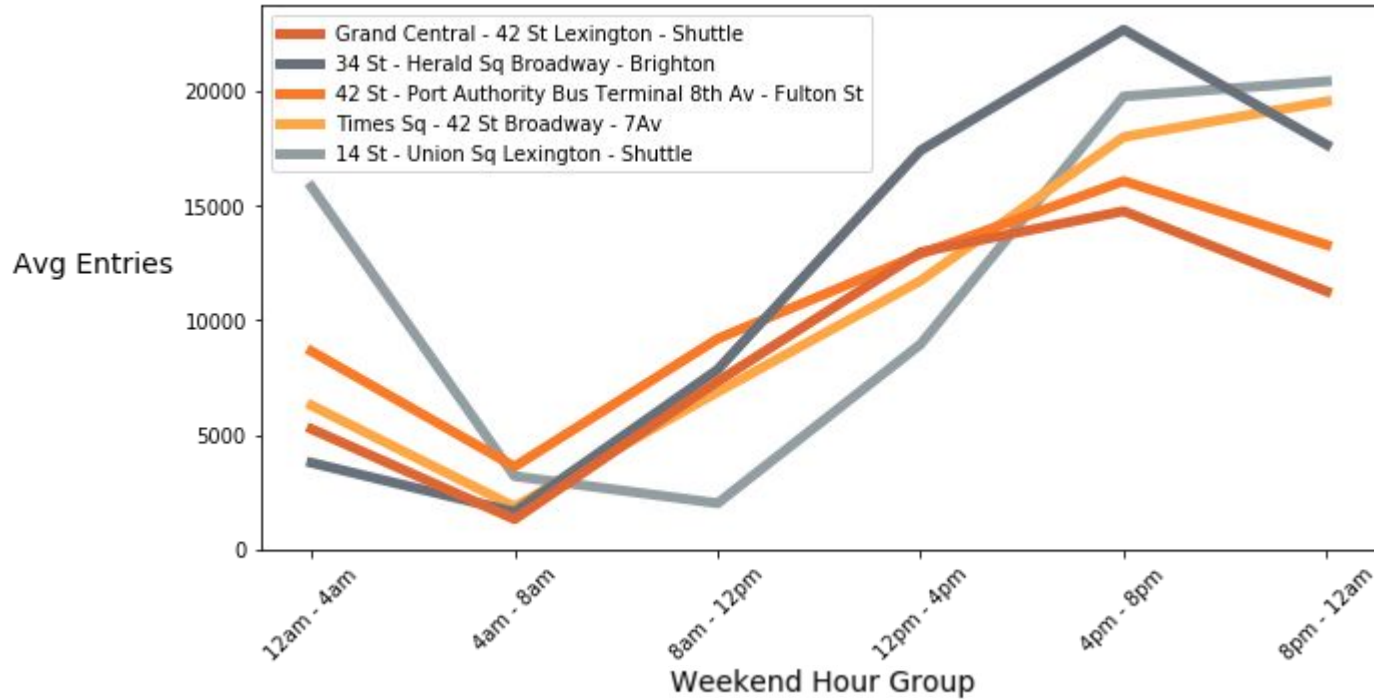

# Timing - Days the stations are most active

# Timing - Weekday hours the stations are most active

# Timing - Weekend hours the stations are most active
